It takes character to be the centre of attention in the middle of space. An entity that Miami Collection expresses in every element through harmony and balance. Seeing, touching, imagining comfort – this is the dynamic vision of living that the collection communicates. A horizon of refined comfort in which the soft and welcoming lines are in harmony with the elegant metal legs that lift the furnishings with rigorous momentum. This design relates to unique fabrics characterised by refined, seductive, evocative colours and patterns, creating the new metamorphosis of beauty. Because beauty is first and foremost an idea of authentic elegance.

The particularly refined fabrics, the round and cosy shapes, the soft and wide cushions, the elegant metal legs, all contribute to increasing the pleasure of living.
